

# INVISALIGN® PROVIDER QUESTIONNAIRE

Invisalign® is a tool used to treat malocclusions (the clinical term for teeth and jaw misalignment). Only a Certified Invisalign® Provider can administer the clear aligner system. He or she will deliver a treatment plan to Invisalign® and perform all necessary orthodontic procedures before and during treatment. The Provider, not Invisalign®, is responsible for your result, so be sure to choose a Doctor that is qualified to diagnose and treat malocclusions.

Orthodontic treatment is an investment that will pay off for the rest of your life with a beautiful and healthy smile. Choose an Invisalign® Provider that you trust in making that investment. These 7 questions should help guide you in making that decision.

1. What is your training in tooth movement? What is your experience in diagnosing and treating malocclusions?
2. How will the Invisalign® system work in my specific case (request specific treatment plan details)?
3. What % of your time in your practice is dedicated to Orthodontics and Invisalign®?
4. How many Invisalign® cases have you successfully completed?
5. How do you evaluate a Clincheck for adjustments?
6. Can you complete my treatment into an ideal class I position (perfect bite) to insure a balanced bite and ideal final result, avoiding longer term, pain free dental health?
7. What additional benefits does your practice offer to make my experience comfortable, convenient and affordable?

Dr. Matthew W. Cline, Orthodontic Specialist

All-Star Orthodontics / 2212 John Rolfe Parkway / Richmond, VA 23233 / 804-419-6788 / [www.richmondallstars.com](http://www.richmondallstars.com)
